[SEE MORE](#)

- 1 Audit your web page**
Provide any URL, and Lighthouse will run a series of audits generating a report of how well the page did.
- 2 Analyze for improvements**
Review the audits report to identify areas in which your page can be improved.
- 3 Learn how to fix it**
For each audit you'll find guidance and immediate steps you can take to improve your scores.

What Lighthouse looks for:

 Performance Audits for metrics like first paint and time to interactive to determine lag.	 PWA Assesses your page against the baseline Progressive Web App Checklist.	 Best Practices Looks for everything from HTTPS usage to correct image aspect ratios.
 SEO Checks for best practices to ensure your site is discoverable.	 Accessibility Checks for common issues that may prevent users from accessing your content.
